

BitShiba (BSB) Whitepaper

Introduction

BitShiba (BSB) is a decentralized meme token built on the BNB Smart Chain, designed to blend community-driven growth with viral meme energy. Inspired by the success of Doge and Shiba Inu, BitShiba aims to be more than just a meme its a symbol of financial freedom powered by its holders.

Token Details

Token Name: BitShiba

Symbol: BSB

Chain: BNB Smart Chain (BEP-20)

Decimals: 18

Total Supply: 10,000,000,000,000,000 BSB

Contract Address: 0x7fc1eab154395466d6d5b981f6d9b8e6a16c59c6

Vision & Mission

Vision:

To lead the next generation of meme tokens by creating a fun, engaging, and rewarding ecosystem for the community.

Mission:

Empower users with a token that reflects decentralization, community unity, and the ability to generate wealth through utility and meme appeal.

Technical Features

- BEP-20 compliant smart contract
- Low gas fees and fast transactions
- Community governance and token burns (future roadmap)
- Strong marketing and influencer partnerships
- Targeted listing on DEXs like PancakeSwap, ApeSwap
- Compatible with Trust Wallet, MetaMask, SafePal

Tokenomics (Initial)

BitShiba (BSB) Whitepaper

Public Liquidity: 50% - PancakeSwap/ApeSwap

Marketing Fund: 20% - Promotions & Listings

Burn Reserve: 15% - Planned Token Burns

Dev & Ops Fund: 10% - Development + Audits

Airdrop & Giveaways: 5% - Community Engagement

Roadmap (2025)

Q1:

- Token Launch
- PancakeSwap Liquidity
- Logo on Trust Wallet
- Website & Whitepaper

Q2:

- CoinMarketCap & CoinGecko Listings
- NFT Meme Collection
- Telegram, Discord Growth
- Influencer Campaigns

Q3:

- DAO Launch (Vote on burns & features)
- Mobile Wallet Tracker
- DexScreener + PooCoin Chart Integration
- More DEX Listings

Q4:

- CEX Listings (Target: BitMart, MEXC)
- Ecosystem Expansion
- Surprise Burn Events
- BitShiba Staking v1
